As rightly said by the renowned mathematician Srinivasa Ramanujan

*“An Equation means nothing to me unless it expresses a thought of God”*

Every equation and expression in mathematics is a language that allows us to explore God’s thought and his creation for humanity. We simply need to understand this language in order to make this world a better place for living. So students if you want to understand this language of mathematics, he is there to help you out. Please feel free to contact him during the college working hours.
