Minutes of Meeting

By the order of principal madam, Order No. GDC-K/flat-1/2023, Dated 15-03-2023, a meeting was held in the chamber of HoD physics on 17-03-2023 in which following points were discussed:

1. It was decided that a general talk with topic "Woman in Science" will be delivered for the students of the college mainly for science student.
2. As we found that our girl student left the studies after graduation as they have many hindrances like economics problem, many have phobia of going outside the town.
3. In this view we choose the topic "Woman in Science".
4. In order to encourage the girl student the members of the meeting decided to go for Dr. Zeena Banoo, Assistant Professor, Department of Physics, Merinda House College, University of Delhi as the speaker of the event.
5. Mr. Rizwan Ali, Assistant professor Physics of GDC, Kargil talked to speaker and moderated the event.
6. It was also decided that the date of event will be 25th March 2023.
7. With these the meeting was concluded by votes of thank given by Dr. Noyaz Ali, HoD Physics, GDC, Kargil.

PRESS RELEASE

GDC Kargil holds talk on "Woman in Science"

Kargil, March 25, 2023:

Department of Physics, Govt. Degree College Kargil under the banner of G20/Y20 today organized a talk titled "Women in Science" to address the challenges faced by women in the field of science and technology. The seminar aimed to encourage more women to pursue careers in science, technology, engineering and mathematics (STEM) fields.

At the outset Rizwan Ali, Assistant Professor Physics welcomed the guest and the speaker of the event, faculty and students. The speaker on the occasion was Zarina Banoo, Assistant professor Physics, Miranda House College, Delhi University.

She shared her life experience and challenges during her journey from Chiktan village to Miranda House. She also shared her experience at CERN facility, Switzerland.

Banoo explained the criteria to take admission in higher institutions for research purposes. She also talked about various scholarship schemes that a student can take to ease the financial burden.

The seminar was insightful and thought-provoking one. It also had an interactive session where various questions were asked by the students.

The talk was concluded by HoD Physics, Dr. Neyaz Ali and thanked the speaker for sparing her valuable time. He requested the speaker to guide the students and requested to give such fruitful talk in the future. He thanked the principal, faculties and students for making the event successful.

"Coming together is a beginning, staying together is progress and working together is success"

– Henry Ford

Minutes of the Meeting

On 20th of Sept. 2023, a meeting of the faculty members of the Department of Commerce was held in the HoD's office chamber. The agenda of the meeting was to organize educational-cum-exposure tour for the academic session 2023-24 for the students of Commerce and Entrepreneurship Skill Course.

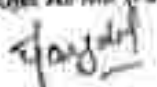

It was decided that the tour will be organized on 23rd September, 2023 (Saturday) and the place of the visit will be Fish Farm, Damsna (Panikhar Kargil) and adjoining areas. The purpose of the tour is to generate entrepreneurial aptitude in the students and how to start an entrepreneurial venture like fish farms, poultry farms, dairy farms and these type of small ventures/ startups so that our students can run these type of small units on their own in future and not only earn their livelihoods but also provide source of earning to few other people. Farm owners and technicians will orient the students about every aspect of managing and running these units like technical aspects, funding requirement, license and permission procedures, site selection and also tell about the various schemes available from government and other sources, etc.

Department of Commerce

Respected MADAM,

I hope this letter finds you in good health and high spirits. I am writing to request permission for an educational tour organized by Department Of Commerce. This tour is a valuable opportunity for us to gain practical insights and enhance our educational experience pertaining to entrepreneurial opportunities.

Purpose: The primary purpose of this educational tour is to broaden our knowledge and provide real-world exposure to the subjects we study in our curriculum. It will complement our classroom learning and allow us to connect theory with practical experiences.

I would like to assure you that the tour has been carefully planned and all necessary safety precautions have been taken into consideration. I kindly request your permission to grant us the opportunity to participate in this educational tour. It will not only enrich our educational experience but also foster personal growth, teamwork, and cultural understanding.

Required: One college Bus along with senior Driver for one day.

Thank you for considering our request. We look forward to your favorable response and the opportunity to embark on this educational journey.

Tour Destination: SURU VALLEY

Tour Dates: 23-09-23 (Saturday)

The next station was Ashuna resort area where the students stopped for breakfast. After having breakfast, the party moved further and after about two hours of journey reached our final destination i.e. Trout Fish Farm, Damsna, Panikhar Kargil-Ladakh.

TROUT FISH FARM, DAMSNA PANIKHAR KARGIL

The purpose of the educational tour was to explore entrepreneurial opportunities regarding small business units like fish farm, poultry farm and other small and medium enterprises (SMEs) in the district. Also to broaden the knowledge of the students and provide real-world exposure to the subjects they study in our curriculum. It will complement their classroom learning and allow them to connect theory with practical experience.

At the Fish Farm, students were enlightened by the incharge of the fish farm in detail regarding the environment of the site, what could be the total capital requirement of establishing the fish farm, how much infrastructure is required, how much manpower is required, what is the source of water, whether perennial source is required or we may have non-perennial (stored water) for proper rearing of fish.

the students asked questions and cleared their doubts and queries from the farm incharge. They also visited various compartments of the fish farm like the breeding section, rearing section, etc.

It was a nice and informational tour as the students were well acquainted with the future scope and present scenario of the fish farming business in the district. They were also informed about the assistance and support of the district Fisheries department and UT government through various schemes in this regard.

THULUS PURTSE KARGIL-LADAKH

After visit to the fish farm, the students were taken to a place called Thulus Purtse and had their lunch. Thereafter they relaxed for some time and had fun like playing volleyball, cricket and song-dance from various cultures like Purgi song, Ladakhi song, Hindi song and specially Persian song from some students who showcased their hidden talent.

Subject: Request for Organising Field Visit to Drass Valley as Part of the Syllabus

Respected Madam,

I am writing to respectfully request the organisation of a field visit to Drass Valley, Kargil, as part of the syllabus for the BSc 3rd semester Geology students.

A field trip to Drass would allow students to directly engage with rock units, including the Matayen rock formation, and better understand the age, composition, and structural characteristics of these geological structures. Additionally, it would give the students opportunity to examine the geomorphology of the valley and analyse the impact of glacial features on the landscape.

This hands-on experience will enhance understanding of the geological processes that have shaped the region, which is integral to academic development of the students. I believe that such an educational trip, under the supervision of our faculty members, would significantly supplement our classroom learning and provide practical insights into the subject matter.

I kindly request your approval for the organisation of this field visit and the necessary permissions to facilitate the trip. Your support in this regard would be greatly appreciated, and we are confident that this experience will be a valuable addition to our academic journey. Being the teacher of concerned subject Mr. Mohd Ali Wazir faculty will accompany the students.

Thank you for considering our request.

Yours sincerely,

HCO (Geology)
GDC Kargil

Press Release

Department of Geology, GDC Kargil Organises One-Day Field Visit to Drass Valley

Kargil, October 10, 2023 – The Department of Geology at Government Degree College (GDC) Kargil organised a one-day field visit to the Drass Valley, located in the Kargil district of Ladakh, to provide BSc 3rd semester students with an immersive experience in the region's fascinating geological landscape.

Drass Valley is renowned for its diverse and striking geological features, making it an ideal location for geological studies and prospecting. During the visit, students had the opportunity to closely examine various rock formations and study the stratigraphic sequence that characterises the region.

Mr. Ali Wazir, a faculty member of the Department of Geology, led the field visit and highlighted the significance of Drass' geology, particularly its diverse rock formations. He provided in-depth explanations on the composition, age, and structural aspects of the rock units found in the area, with special focus on the Malayeri rock units. The students engaged in detailed studies of these rock formations, gaining insight into the region's geological history. In addition to rock formations, the students explored the river geomorphology of the region, observing and analysing the glacial features that mark the Drass Valley's landscape. This hands-on experience allowed the students to better understand the complex processes that shape the Himalayan region's geology.

The field visit to Drass Valley proved to be a valuable educational experience, offering students a unique opportunity to study Himalayan geology and the geological features of one of the most tectonically active regions in the world. The trip further strengthened their understanding of the geological processes that have shaped the landscapes of Ladakh and the surrounding areas.

Total number of 38 students of BSc 3rd Semester have participated and the field visit was part of the Department of Geology's ongoing commitment to provide practical exposure to students, enhancing their academic knowledge with real-world geological observations.

DATE: 4th Oct 2023

MEMBERS PRESENT: Ms. Kunzang Dolma (HOD), Dr. Lobzang Tashi and Dr. Zakir Ali

AGENDA: Discussion on Water Quality Analyses Tour

Handwritten notes:
The Principal,
Chem department
Kargil
Handwritten notes: "Handwritten notes", "Application for permit and fees for departmental tour", "25/9/23"

Respected Madam,

With due respect, I am writing to request permission and the transportation for a chemistry departmental tour for the students of Chemistry (BSc. In and Water Quality Analysis (ORIP in Chemistry). The purpose of the tour is to provide the students with practical experiences and exposure to the activities and enhance their understanding of the subject matter and also to collect water samples (at 06-10-2023) to analyze water around 25 km.

Kindly grant the permission and transportation arrangement (bus) for the said tour.

Thanking You

Your Sincerely

PRESS RELEASE

06-10-2023

Department of Chemistry, GDC Kargil conducted a one-day collection cum exposure tour on 06-10-2023 to Suru valley, Kargil. The tour was organized for the students of semester I batch 2023 and skill course "Water Quality Analysis"

Water samples were collected from different spots along the Suru valley belt namely Tambis, Farata and Tresbone. The samples were collected from different water sources like springs, river, streams, etc in the said area so as to analyze the quality of the water. The physical and chemical parameters of water quality shall be measured and analyzed later in the laboratory of chemistry department.

The students were made aware of the importance of having the knowledge and skill for testing the water quality. They were escorted by Prof Kunzang Dolma, Prof Rinchen Angmo and Dr. Zakir Ali.

We would like to acknowledge the support and encouragement of Principal GDC, Kargil for providing the necessary arrangements.

Exposure Cum Waste Collection Tour of GDC Kargil Concluded

The Department of Chemistry, GDC Kargil conducted a one-day Waste collection cum exposure tour in the Suru valley, Kargil.

The tour was organized for the students of semester I batch 2023 and skill course "Water Quality Analysis"

Water samples were collected from different spots along the Suru valley belt namely Tashin, Farama and Daspore. The samples were collected from different water sources like springs, river, streams, etc from the said area so as to analyze the quality of the water.

The physical and chemical parameters of water quality shall be measured and analyzed later in the laboratory of chemistry department.

The students were made aware of the importance of having the knowledge and skill for testing the water quality. They were escorted by Prof Kunzang Dolma, Prof Rinchen Angmo and Mr Zahir Ali under overall direction and support of Principal GDC Kargil.
