NAAC

ANNUAL EXAMINATION EVALUATION REPORT OF 6TH SEMESTER BATH 2021 SESSION 2023-24

The annual examination report across streams varies accordingly. The final undergraduate examination pass percentage for commerce is highest with 88.8% while the science stream students' pass percentage is stated as 41.59% and for students of BA the pass percentage was 52.45% with the overall pass percentage being 47.45. It is indeed a need to ponder upon the said results for further improvement in the final results. To improve students result requires a combination of targeted strategies, supportive intervention and engagement techniques.

Some of the reasons for poor results are:

1. There is no filter mechanism for admission in the 1st semester.
2. Hard working and economically well-off students prefer to go outside the UT for pursuing higher studies.
3. Low student teacher ratio.
4. Unfavorable climate in late autumn and early spring especially for students coming from far flung areas.
5. Despite proper counseling, students option subjects that do not suit their Caliber.

Some remedial measure that needs to be taken to improve the results are:

1. Need for more academic arrangements as per the requisition from each department.
2. Provide extra support to students struggling with specific concepts or skills.
3. Encourage active participation through group discussion, projects, and presentations.
4. Organize additional classes or small group sessions focusing on weaker students.
5. Emphasize regular practice, especially in problem-solving and core subjects.
6. Incorporate educational apps, online resources, and e-learning platforms.
7. Provide constructive and timely feedback to help students understand their mistakes
8. Strict implementation of shortage list so that non sincere students are debarred from appearing in the exams.
9. Students' motivation towards academic studies needs to be revived.
10. Avoid unnecessary extracurricular activities that affects academics of the students
11. Grievance redressal mechanism of the college needs to be made more student friendly.
12. Students' council needs to be made more powerful.
13. Proper academic auditing.

By way of the above stated remedial measures, the college shall drastically improve the pass percentage in coming years.
