

4.1.1 The Institution has adequate infrastructure and physical facilities for teaching- learning, viz., classrooms, laboratories, computing equipment etc.

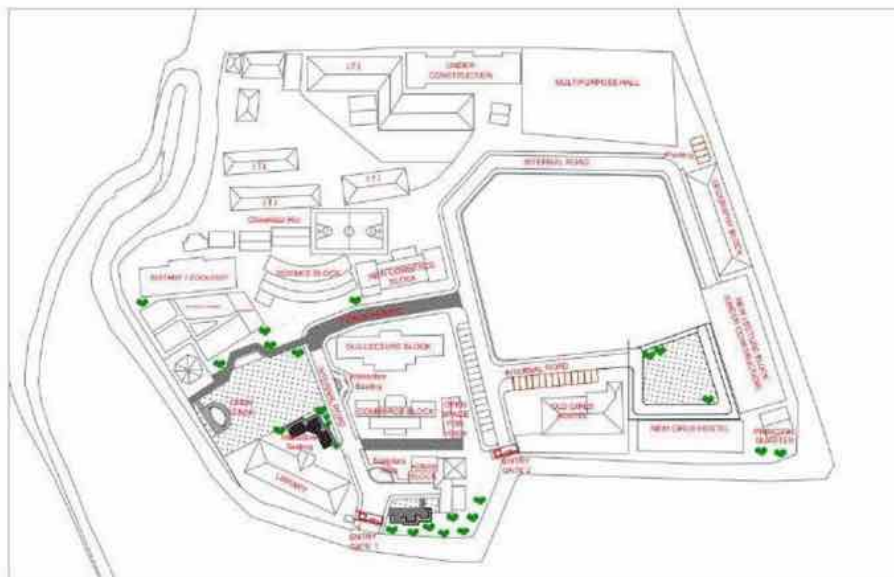

Existing College Infrastructure

1. Location and Accessibility:

The Govt. Degree College Kargil is in the heart of Suru Valley and is located at Bagh-e-Khomeini – the extreme western part of Khurbathang plateau, some 500 feet above the Kargil town. The location of the college and the surrounding provide the very congenial and tranquil atmosphere for academic pursuit. As far as transportation is concerned, the college has three buses as means of transportation and this makes college accessible to the students coming from different parts of the district.

2. Campus Layout:

The college has seven academic buildings and one administrative building, a girl hostel, and an open theater,

3. Academic Buildings:

The college has seven academic buildings which include:

- a. Old Lecture Blocks - The Old lecture block has four classes each with the seating capacity of 50 students. Each class room has audio visual aids (projectors).

- b. Old Commerce Block - The old commerce block has Department of commerce with its one lecture hall and computer lab. It also has Department of Psychology with its lecture hall, and Department of Geology with its own lecture hall and a museum.

- c. Science Block A- The science block has four departments that is Department of Zoology, Botany, Physics and Chemistry. Each departments have its own wellequipped laboratories and head of the department rooms.

- d. Science Block B- The second science block has two departments that is department of Biotechnology and Department of Biochemistry with labs and classes.

- e. New Lecture Blocks- The new lecture block has 10 lecture halls with least 54 seating capacities along with Mathematics and Sociology departments.

- f. Department of Geography- The college have separate department of Geography with its Laboratory and class rooms.

Room Number 09 Lecture Block

Room Number 08 Lecture Block

4. **Library:** The college has Abdul Kalam Library with a collection of approx. 3000 books, the library has two reading rooms. The library is fully automated.

5. **Laboratories:** There are various laboratories available for practical sessions in science. These are
- Zoology
 - Botany
 - Chemistry
 - Physics
 - Biotechnology
 - Biochemistry
 - Geography
 - Geology

6. ***Hostel Facilities:*** The college has on-campus accommodation for college female students in Girls Hostel. The Girls hostel has 24 rooms, each room can accommodate 3 girls. Therefore, in total Girls Hostel can has a capacity of 72 girls.

7. **Sports and Recreation:**

The College has Department of Physical Sciences with the post of Director of Physical sciences. The college has a Multipurpose ground which can be used for athletic meets like 400 mtr race, Archery, tennis court, badminton, Volley ball, Handball, long jump, etc. The college also has a basketball court, Gym equipment.

8. **Administrative Offices:**

The administrative office of the college is within the college this makes college administrative office accessible to all the students and the staff of the college. The Administrative section has the office of the Principal, Section officer, Accounts officer, College's IQAC office, Examination office, Admission office, Staff room etc.

9. **Technology Infrastructure:** Skill Infrastructure

The College runs number of skill courses that are enlisted at the National Skill Development Cooperation and are mentioned as sector skills. The following the various skill courses that are functional in the college these are

केंद्र शासित प्रदेश लद्दाख प्रशासन
तकनीकी शिक्षा एवं
कौशल विकास विभाग,
लद्दाख कौशल विकास मिशन
सिविल सचिवालय, लद्दाख

No. M/1515/2022-SD&TE SECTION/ I ISC
Subject: Introduction of Skill Courses in College of UT Ladakh.

Dated: 27 /06/2023

Sir/Madam,

I am pleased to inform you that the Governing Council of LSDM has approved the project "Establishment of Laboratories for Skill Courses in Govt. Degree Colleges" (the list of courses is enclosed as Annexure-A), to introduce different skill courses in colleges of UT Ladakh. This initiative aligns with the vision of the National Education Policy to integrate vocational education and training/skilling into higher education. I would also like to express my gratitude to the SSCs for their continuous support to LSDM in this project and their overall contribution to shaping the "Skill Ecosystem of Ladakh. 't

In order to ensure the successful implementation of the project, I kindly request the following support from the SSCs:

- i. Identify qualified and experienced trainers for the "Skill Courses" and provide support for conducting their Training of Trainers (TOT) program.

- ii. Explore the possibility of partnering with CSR organizations to share the entire or a portion of the trainers' remuneration.
- iii. Assist colleges in working out the detailed specifications of machinery, equipment, and raw materials for the Skill Courses.
- iv. Develop a curriculum of 90 hours duration that covers the entire requirement of STT courses spread across different semesters. Explore the approval of standalone NOSs (National Occupational Standards) of 90 hours by NCVET (National Council for Vocational Education and Training), similar to the approach taken by Handicrafts and Carpet Sector Skill Council, to enhance the credibility of certification.
- v. Explore the possibility of partnering with CSR organizations to establish labs in the colleges or contribute to certain components of the labs. Additionally, consider establishing labs for other Skill Courses not included in Annexure-A but identified by the SSCs as having good potential and demand in Ladakh. The necessary civil infrastructure and space will be provided in the colleges/ITIs.
- vi. Ensure assessment and certification for the 90-hour Skilling Course at the end of each semester by the respective SSC, and provide appropriate certification to the candidates. Furthermore, if a student continues with module(s) of the same course in subsequent semester(s) and completes the required training hours for STT, they should be assessed and awarded the STT certification for the particular job role.
- vii. Facilitate the onboarding of trainees of Skill Courses/STT on the Skill India Portal.

Furthermore, I would also like to request NSDC for their support in the abovementioned requests to SSCs and their collaboration/support for the implementation of the project.

Yours Sincerely,

(Padma Angmo)

Commissioner/Secretary
Technical Education &

Skill Development Dept./MD LSDM
