No. M/1515/2022-SD&TE SECTION/1148-1156

Dated: 27 /06/2023

Subject: Introduction of Skill Courses in College of UT Ladakh.

Sir/Madam,

I am pleased to inform you that the Governing Council of LSDM has approved the project "Establishment of Laboratories for Skill Courses in Govt. Degree Colleges" (the list of courses is enclosed as Annexure-A), to introduce different skill courses in colleges of UT Ladakh. This initiative aligns with the vision of the National Education Policy to integrate vocational education and training/skilling into higher education. I would also like to express my gratitude to the SSCs for their continuous support to LSDM in this project and their overall contribution to shaping the "Skill Ecosystem of Ladakh."

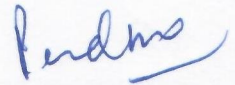

In order to ensure the successful implementation of the project, I kindly request the following support from the SSCs:

- i. Identify qualified and experienced trainers for the "Skill Courses" and provide support for conducting their Training of Trainers (ToT) program.
- ii. Explore the possibility of partnering with CSR organizations to share the entire or a portion of the trainers' remuneration.
- iii. Assist colleges in working out the detailed specifications of machinery, equipment, and raw materials for the Skill Courses.

- iv. Develop a curriculum of 90 hours duration that covers the entire requirement of STT courses spread across different semesters. Explore the approval of standalone NOSs (National Occupational Standards) of 90 hours by NCVET (National Council for Vocational Education and Training), similar to the approach taken by Handicrafts and Carpet Sector Skill Council, to enhance the credibility of certification.
- v. Explore the possibility of partnering with CSR organizations to establish labs in the colleges or contribute to certain components of the labs. Additionally, consider establishing labs for other Skill Courses not included in Annexure-A but identified by the SSCs as having good potential and demand in Ladakh. The necessary civil infrastructure and space will be provided in the colleges/ITIs.
- vi. Ensure assessment and certification for the 90-hour Skilling Course at the end of each semester by the respective SSC, and provide appropriate certification to the candidates. Furthermore, if a student continues with module(s) of the same course in subsequent semester(s) and completes the required training hours for STT, they should be assessed and awarded the STT certification for the particular job role.
- vii. Facilitate the onboarding of trainees of Skill Courses/STT on the Skill India Portal.

Furthermore, I would also like to request NSDC for their support in the above-mentioned requests to SSCs and their collaboration/support for the implementation of the project.

Yours Sincerely,

(Padma Angmo)

Commissioner/Secretary

Technical Education &

Skill Development Dept./MD LSDM
